

Type Title of Document Here [Title style]

INSERT NAMES OF AUTHOR(S) HERE: FIRSTNAME LASTNAME¹, FIRSTNAME LASTNAME¹, and FIRSTNAME LASTNAME²

¹Division/Department if applicable

Company Name if applicable

Address 1

²Address 2

ABSTRACT [HEADING 1 STYLE]

[Body Text style] Document abstract goes here. It should include a concise description of the results and findings of the research.

Nam ultrices wisi. Mauris tempor dolor nec tellus. Proin in nulla. In ultrices scelerisque massa. Nam suscipit porttitor lorem. In sit amet lorem et tellus tempus tempor. Suspendisse egestas. Praesent ultricies dolor a ante. Etiam tincidunt, dui eget vestibulum feugiat, magna enim ultricies lectus, sed condimentum purus diam a neque. Aliquam cursus.

KEYWORDS: *At least 3* keywords are required with all letters in lower case and not bold. Careful consideration should be given to selection of keywords as they will be used to generate the Keywords Index for the proceedings volume. A list of suggested keywords is provided below. It is recommended that you select at least one of these words. If you already have a keyword that has the same meaning as one of the words on the list, use the word provided on the list.

Suggested Keywords: fire chemistry; modeling; human behavior; risk assessment; performance-based design; statistics; structural response; structural design; suppression; detection; forensics; smoke management; flame spread; fire growth; compartment fires; heat transfer; fluid dynamics; CFD; wildfires; explosion; ignition; smoke; toxicity; self-heating; heat release rate; human factors; response patterns; egress; hazard evaluation; reliability; compartmentalization; protection of steel; protection of concrete; protection of wood; fire investigation; transportation fires; industrial fires.

NOMENCLATURE LISTING (IF APPLICABLE) [HEADING 1 STYLE]

If symbols are used extensively, a nomenclature listing, arranged alphabetically, must be included in the paper immediately following the Keywords listing. All subscript and superscript symbols appear separately in the listing. If units of measure are provided, place them in parentheses next to the applicable term. A table, as provided below, can be used to simplify two column layout of nomenclature list.

a	apparatus dimension (m)	T_0	ambient temperature (K)
c_p	heat capacity (kJ/kg/K)	t	time (s)
H	half-length of the window (m)	x	dimension into glass (m)
h	heat transfer coefficient (W/m ² /K)	y	away from edge (m)
I	absorbed radiant heat flux (kW/m ²)	z	along edge (m)
k	thermal conductivity (W/m/K)	Greek	
L	glass thickness (m)	α	thermal diffusivity (m ² /s)
l	decay length (m)	ε	emissivity
q	heat flux (kW/m ²)	subscripts	
s	shaded length (m)	L	ambient side of glass plane
T	temperature (K)	o	fire side of glass plane

INTRODUCTION [HEADING 1 STYLE]

[Body Text style] Document introduction goes here.

Ut id dolor. Cras et enim. Nulla dignissim diam in sapien. Suspendisse potenti. Quisque sodales accumsan est. Maecenas eget urna. Maecenas vitae lectus. Proin ipsum magna, pellentesque a, sagittis sit amet, porta

id, felis. Cum sociis natoque penatibus et magnis dis parturient montes, nascetur ridiculus mus. Morbi libero elit, congue id, lobortis eget, tincidunt eget, lacus. Sed imperdiet augue vel libero. Praesent tempus diam quis risus. Phasellus velit nisl, consequat in, malesuada id, ultricies id, arcu. In hac habitasse platea dictumst. Duis eu augue.

SUPPLEMENTARY HEADING 1 [HEADING 1 STYLE]

Body text. [Body Text style] Nam ultrices wisi. Mauris tempor dolor nec tellus. Proin in nulla. In ultrices scelerisque massa. Nam suscipit porttitor lorem. In sit amet lorem et tellus tempus tempor. Suspendisse egestas. Praesent ultricies dolor a ante. Etiam tincidunt, dui eget vestibulum feugiat, magna enim ultricies lectus, sed condimentum purus diam a neque. Aliquam cursus.

Supplementary Heading 2 [Heading 2 style]

Body text. [Body Text style] Nam ultrices wisi. Mauris tempor dolor nec tellus. Proin in nulla. In ultrices scelerisque massa. Nam suscipit porttitor lorem. In sit amet lorem et tellus tempus tempor. Suspendisse egestas. Praesent ultricies dolor a ante. Etiam tincidunt, dui eget vestibulum feugiat, magna enim ultricies lectus, sed condimentum purus diam a neque. Aliquam cursus.

Supplementary Heading 2

Body text. [Body Text style] Nam ultrices wisi. Mauris tempor dolor nec tellus. Proin in nulla. In ultrices scelerisque massa. Nam suscipit porttitor lorem. In sit amet lorem et tellus tempus tempor. Suspendisse egestas. Praesent ultricies dolor a ante. Etiam tincidunt, dui eget vestibulum feugiat, magna enim ultricies lectus, sed condimentum purus diam a neque. Aliquam cursus.

SUPPLEMENTARY HEADING 1

Body text. [Body Text style] Nam ultrices wisi. Mauris tempor dolor nec tellus. Proin in nulla. In ultrices scelerisque massa. Nam suscipit porttitor lorem. In sit amet lorem et tellus tempus tempor. Suspendisse egestas. Praesent ultricies dolor a ante. Etiam tincidunt, dui eget vestibulum feugiat, magna enim ultricies lectus, sed condimentum purus diam a neque. Aliquam cursus.

OPTIONAL DOCUMENT COMPONENTS

Abbreviations and acronyms

Write out abbreviations or acronyms at their first mention in the text followed by the abbreviation or acronym in parenthesis.

Symbols

Symbols in the text of the document should be italic. Symbols must be defined either in the text or in a Nomenclature Listing table. Symbol definitions should include the units of the symbol.

Equations [Equation Style]

Equations are numbered consecutively in the text and referred to as Eq. 1, etc. If the equation reference is the first word in a sentence, then spell the word Equation. An Equation style has been provided which includes a right aligned tab stop for the equation number and extra space after the paragraph.

$$\frac{dm_1}{dt} = -\{k_1(T) + k_2(T)\}m_1, \quad \frac{dm_2}{dt} = k_2(T)m_1, \quad \frac{dT}{dt} = H \quad (1)$$

$$m(T_c) = m_1(T_c) + m_2(T_c) = \frac{r+1}{2}. \quad (2)$$

Figures

- All figures must have a number and caption [Caption style], i.e., Fig. 1. Fire in unoccupied building. A single space separates the word Fig. and the figure number, as well as the figure number and caption. Number figures consecutively with Arabic numerals.
- Figure captions should be as concise as possible detailed information/descriptions about the figures should be given in the text.
- Figure captions are centered below the figure, in sentence case with a period at the end.
- In the text, references to figures are numbered consecutively and referred to as Fig. 1, etc. If the figure reference is the first word in the sentence, then spell out the word Figure.
- Figures are centered.
- In Word 2000, pictures are inserted in line with text. Whenever possible, this option should be applied to pictures to minimize unexpected movement of surrounding text.

Fig. 1. Figure caption, sentence case, with period at the end. [Caption style]

Tables

- All tables must have a number and title [Table Title style], i.e., Table 1. Heat fluxes selected for the preheating region. A single space separates the word Table and the table number as well as the table number and title. Number tables consecutively with Arabic numerals.
- Table titles should be as concise as possible detailed information/descriptions about the tables should be given in the text.
- Table titles are placed above the table, centered, in sentence case, with a period at the end.
- Tables are centered.

Table 1. Table title, sentence case, with period at the end. [Table Title style]

Column 1	Column 2	Column 3 ^a
Left align text in table rows for better legibility ^b	31	499.6
Sample text	30	88.8
Sample text	29	516.5
Sample text	29	6.4

^aDecimal alignment of numbers in columns improves legibility

^bTable footnotes are referenced by superscript letters

RULES FOR REFERENCES (delete this section)

- Indicate references in the text using full-size numbers in brackets, i.e., [1]. References are numbered consecutively in the text.
- Include the full title in the references list [Reference style]. The reference style formats the indented paragraph and applies consecutive numbers to items in the list.
- DOI citations should be included in references where available. DOIs can be found by inserting reference text at the following site: <http://www.crossref.org>.
- References are fully justified.
