Hi Margaret

Please add this item to the agenda as well, distributing Craig's email with the agenda.

Thank you!

.../Bodzio

Bodzio,

I was thinking that Michael and Terry are doing and have done significant work for IAFSS that might justify IAFSS funding their travel to Interflam for the committee meeting. I know we have not done this before, but they are doing very significant work on behalf of the association. I also recognize that this could be opening a box, since many others also do a lot for the association like symposia editors, etc. just a thought, craig
